The compiler is a gentleman of known abdities and long experience in his profession. The pieces in this book, are chiefly selected from popular works designed for youth and it is believed, will have a healthy moral influence in those schools in which I is adopted. The book comes at a very low price and has been adopted in a great many Schools with decided approbation and having been sureotyped is free from the dan ger of having any alterations made in it, which is the greatest trouble with all school books Those connected with schools or interested in
